K₂O

Description

A 100% soluble seaweed concentrate providing multiple turf benefits. It's proven to enhance colour and quality, and it also feeds soil microbes, optimising the soil to significantly improve root length and density. Our SMX technology improves nutrient uptake both in roots and in leaves.

This unique formulation contains over 60% active seaweed content, harvested responsibly from premium high-density Atlantic *Ascophyllum nodosum* extract. Also handy for tank-mixing with other compatible products.

Guaranteed analysis

Oxide

N	Total Nitrogen	4%
	Ammoniacal nitrogen (N-NH ₄)	4%
P ₂ O ₅	Phosphorus Pentoxide	0%
K ₂ O	Potassium Oxide	15%

Benefits

- \\ Highest active seaweed content available
- \\ Boosts turf colour, quality, root growth and soil
- \\ Good for mixing with other products

Characteristics

Pack size	15kg
Granule dispersal	Immediate* depending on environmental factors
Longevity	2-4 weeks (depending on rate and environmental factors)
Typical turf response	< 24 hours* depending on environmental factors

Application rates

Recommended Rate: 1 kg/ha

How to use

- 1 Three quarter fill your spray tank with water
- 2 Turn on agitation
- 3 Add appropriate tank-mix partner
- 4 Gradually sprinkle required quantity of SMX directly into spray tank to allow solubilisation
- 5 Fill spray tank to required volume with agitation
- 6 Spray

Recommended period of use
