

Pure Dried Vacuum Salt

Pure Dried Vacuum Salt is ideal for a wide range of applications including food, animal feed, water treatment and chemical manufacture. The manufacturing plant is registered for food production, and food grade PDV certified to the BRC Global standard for food safety and feed grade PDV certificated to the Feed Materials Assurance Scheme, FEMAS. Low sulphate, bromide and moisture levels contribute to the high chemical purity which is required for most industrial applications. This purity is assured by a Quality Management System registered to ISO 9001 and a commitment to continuous improvement.
